

VALLABHA VENKATA SAI POOLA

Machilipatnam, Andhra Pradesh, India • +91 8247653028 • vallabh2005k@gmail.com

SUMMARY

Motivated student with a strong foundation in software development and architecture. I have hands-on experience working on various projects and a passion for problem-solving. I excel in communication and collaboration, and I'm skilled in creating clear technical documentation. Eager to apply my knowledge and learn more in a dynamic environment.

WORK EXPERIENCE

Backend Developer , StoreInfinity **Dec 2024 - Present**

Developed and implemented cost-effective backend solutions, resulting in a 20% reduction in infrastructure and operational costs. Optimized database queries and API performance, streamlining workflows and improving system efficiency by 25%. Led a cross-functional team to design and deliver a complex backend architecture for a large-scale project, ensuring timely delivery within the specified budget.

EDUCATION

Bachelor of Technology in Computer Science & Engineering Dhanekula **Jun 2022 - Present**

Institute of Engineering and Technology Ganguru, Vijayawada

Intermediate Education in MPC **Jun 2020-Apr 2022**

Sri Chaitanya Junior College Machilipatnam

Secondary School Certification Dr.K.K.R's Gowtham School, Machilipatnam **Jun 2019-Apr 2020**

Technical Skills

Frontend Development:

- HTML5, CSS3, JavaScript, Bootstrap, React.js (learning), Responsive Web Design, Cross-Browser Compatibility, UI/UX Design Principles, Figma (basic)

Backend Development:

- Java, Python, C, C++, R, RESTful APIs, JSON, Node.js (beginner)

Web Development:

- Web Performance Optimization, Mobile-First Design, Secure Coding Practices, Version Control (Git, GitHub)

Software Development Methodologies:

- Agile (Scrum), Test-Driven Development (TDD), Continuous Integration/Continuous Deployment (CI/CD)

Tools & Frameworks:

- Git, GitHub, Jira, VS Code, Bootstrap, Postman, Visual Studio, Chrome DevTools, Jenkins (basic)

Programming Languages:

- C, C++, Python, Java, R, Kotlin

Other Skills:

- UI Testing (basic Jest knowledge), Accessibility Standards (WCAG), Basic DevOps Concepts, SEO

INTERNSHIPS

Cyber security intern,paloalto **Jun 2023 - Oct 2023**

- Coordinated project tasks, ensuring adherence to engineering standards and regulations.
- Conducted Comprehensive Project task And performed security Analysis Through Barriers

Digital Marketing intern,APIR2 **Feb 2024 - Apr 2024**

- Coordinated and executed digital marketing campaigns across multiple channels, ensuring adherence to brand guidelines and industry standards..

Cyber Security Intern ,Black Bucks **April 2024 - Jul 2024**

- Coordinated project tasks, ensuring adherence to engineering standards and regulations.
- Conducted comprehensive project analyses, identifying and rectifying discrepancies in engineering designs.

Artificial &Machine Learning intern,AIMERS **May 2025 - Jul 2025**

- Coordinated project tasks, ensuring adherence to engineering standards and regulations.
- Conducted comprehensive project analyses, identifying and rectifying discrepancies in engineering designs.

PROJECTS

- **Face Recognition Based Attendance System Using Python**

Developed an automated attendance system using Python and OpenCV for real-time face recognition and database integration.

- **Medical Chat-Bot Using Machine Learning**

Built a medical chatbot using machine learning and NLP to predict diseases from symptoms with text-to-speech support.

- **Job Searching Platform**

Created a full-stack platform that connects job seekers and recruiters with advanced search, filtering, and recommendation features. Focused on user-friendly design and real-time job updates.

- **Resume Builder**

Developed a resume-building application enabling users to create professional resumes with customizable templates and auto-formatting features. Enhanced usability through an interactive and guided UI.

- **Migraine Forecast Management System**

Designed a predictive system that monitors triggers and environmental factors to forecast migraine attacks. Used machine learning for pattern recognition and provided proactive alerts for user health management.

- **Non-Hashed Password Cracking Tool**

The Non-Hashed Password Cracking Tool is a security utility designed to identify and expose weakly stored plaintext passwords in systems. It helps ethical hackers and security analysts assess vulnerabilities and strengthen authentication mechanisms.

ADDITIONAL INFORMATION

Languages Known:English, Telugu, Hindi

Hobbies & Interests

- Exploring UI/UX trends and modern web design
- Solving coding challenges on platforms like LeetCode & HackerRank
- Designing creative interfaces using Figma and Canva
- Reading tech blogs and books on software development
- Listening to podcasts on startups, tech, and innovation
- Playing cricket and participating in team sports
- Contributing to open-source and mini personal web projects

Certifications

- Python Programming **Infosys Spring Board**
 - C Programming **IIT Bombay Spoken Tutorial**
 - C++ (CPP) Programming **IIT Bombay Spoken Tutorial**
 - Java Programming **Infosys Spring Board**
 - R Programming **IIT Bombay Spoken Tutorial**
 - Basics on Drone **Infosys Spring Board**
 - Responsive Web Development by HTML and CSS **Infosys Spring Board**
 - HTML, CSS and JavaScript for Beginners – A Web Design Course **Infosys Spring Board**
 - Project: Build Responsive Website Using HTML5, CSS3, JS and Bootstrap **Infosys Spring Board**
 - Software Engineering and Agile Software Development **Infosys Spring Board**
 - Agile Software Development **Infosys Spring Board**
-
