

VALLABHA VENKATA SAI POOLA

Backend Developer | Full-Stack Engineer (Java, Python, Node.js, React)

Machilipatnam, Andhra Pradesh | +91 8985795637 | vallabhavenkatasai@gmail.com | LeetCode / GitHub: on request

PROFILE

Backend-focused Software Engineer with production experience shipping scalable systems: cut infrastructure costs 20% and improved query performance 25% on a live system. Full-stack proficiency across React, Node.js, Java, and Python, with hands-on exposure to ML/AI model development. Strong problem-solving foundation built through active competitive programming practice (LeetCode, HackerRank) and 5 shipped personal/team projects.

TECHNICAL SKILLS

Languages: Java, Python, C/C++, JavaScript, Kotlin

Frameworks & APIs: React.js, Node.js, Express.js, REST APIs, HTML5/CSS3, JSON

Databases: MySQL, MongoDB (project experience)

Tools & DevOps: Git/GitHub, Postman, Jira, Jenkins, Docker basics, CI/CD, VS Code

Practices: Agile/Scrum, TDD, Data Structures & Algorithms, System Design fundamentals

WORK EXPERIENCE

Backend Developer | StoreInfinity

Dec 2024 – Jan 2026

- Led a cross-functional engineering team to design and ship backend architecture for a large-scale production system, on time and within budget.
- Optimized database queries and API response times, improving system efficiency by 25% and cutting infrastructure/operational costs by 20%.
- Collaborated with frontend and product teams to define REST API contracts, ensuring smooth integration across the stack.

INTERNSHIPS

AI & Machine Learning Intern | AIMERS

May 2025 – Jul 2025

- Analyzed model outputs against project requirements, identifying and correcting accuracy discrepancies before deployment.

AI & Deep Learning Intern | Black Bucks

Apr 2024 – Jul 2024

- Built and trained deep learning models for classification tasks, improving accuracy through hyperparameter tuning and data augmentation.

Digital Marketing Intern | APIR2

Feb 2024 – Apr 2024

- Coordinated and executed digital marketing campaigns across multiple channels, ensuring adherence to brand guidelines and industry standards.

PROJECTS

- Job Searching Platform** — Full-stack marketplace (React, Node.js, MongoDB) connecting job seekers and recruiters with real-time search, filtering, and recommendation features.
- Medical Chatbot (ML/NLP)** — Python-based chatbot that predicts likely conditions from symptoms using NLP models and responds via text-to-speech.
- Face Recognition Attendance System** — Real-time attendance tracking built with Python, OpenCV, and a live database backend.
- Migraine Forecast System** — Predictive model (Python) tracking triggers and environmental data to forecast migraine attacks and proactively alert users.
- Resume Builder** — Web app (React, Node.js) for generating customizable, auto-formatted professional resumes.

EDUCATION

B.Tech, Computer Science & Engineering | Dhanekula Institute of Engineering & Technology

2022 – Present

Intermediate (MPC) | Sri Chaitanya Junior College

2020 – 2022

CERTIFICATIONS

- Python & Java Programming — Infosys Springboard
- C/C++ Programming — IIT Bombay Spoken Tutorial
- Agile & Software Engineering — Infosys Springboard
- Responsive Web Development (HTML/CSS/JS) — Infosys Springboard

ADDITIONAL INFORMATION

Languages Known: English, Telugu, Hindi

Active on LeetCode and HackerRank; contributes to open-source and personal web projects.
